

Attention All Ontario Manufacturers:

EMC & MEDT Announce New Initiative: 50% Off Lean Training!

Ontario Helping Industry to Stay Competitive

Ontario's Ministry of Economic Development and Trade - MEDT (Communities in Transition) and Excellence in Manufacturing Consortium (EMC) are continuing to help manufacturers increase competitiveness and become more efficient, through the rapid deployment of much needed productivity skills training.

Announced today by **Sandra Pupatello, Ontario Minister of Economic Development and Trade** and **Al Diggins, President and General Manager, EMC Canada**, all Ontario manufacturers are eligible to receive 50% off the cost of Lean training, at more than 50 hands-on Lean training sessions being hosted by EMC across the province.

Excellence in Manufacturing Consortium (EMC) is expanding its highly successful Lean Manufacturing Training Program, adding these new Lean training sessions to benefit a minimum of 850 participants across Ontario. Over 2,600 manufacturing leaders benefited from the EMC-MEDT funded Lean training during the first round of this initiative.
